

MESSAGE FROM CEO

It gives me great pleasure to announce that kbs has successfully launched careerz360, Pakistan's first recruitment portal with professional networking capabilities. The portal would not only enable job seekers to realize their maximum potential but also would enable companies and employers to find the best possible candidates for the available positions and help companies to improve their internal marketing and recruitment processes.

careerz360 has been designed to ensure highest ROI (Return on Investment) for both employers and job seekers for their valuable time and money spent. You could expect a good response for not only your premium posts but also posts of standard type.

Features like Automated Application Ranking and Recruitment Analytics makes it easy and fast to analyse your posting response and filter candidates.

This is a great milestone in the history of kbs international and I would like to take this opportunity to thank the team who have worked tirelessly over the months to make it happen and they shall continue to do to develop the product further!

This is only the beginning and you could expect a lot more in future as we have lots of great and exciting features lined up in the road map of careerz360.com.

I hope that you enjoy your experience with us and please do provide us with your valuable feedback.

careerz360

Farooq Ahmed
Chief Executive Officer

See you soon @ www.careerz360.pk
